

Gori ko Landscape

central european green belt

Goal: to improve conservation status of 3 Natura 2000 habitat types and habitats for 10 species within the Natura 2000 site Goričko, Slovenia
 Budget: 1.785.353 EUR
 Duration: from 1 December 2017 to 30 November 2021
 Project partners: Goričko Nature Park Public Institute (lead partner), DOPPS-BirdLife Slovenia, Chamber of Agriculture and Forestry of Slovenia - Institute in M. Sobota
 Target habitat types: all three Natura 2000 grassland habitat types: Semi-natural dry grasslands and scrubland facies on calcareous substrates (HT 6210), Molinia meadows on calcareous, peaty or clayey-siltladen soils (HT 6410) and Lowland hay meadows (HT 6510)
 Target animal species: two bird species (Scops Owl and Woodlark), three day-butterfly species (Scarce large blue, Dusky large blue and Marsh Fritillary), three bat species (Greater mouse-eared Bat, Lesser Horseshoe Bat and Common bent-wing Bat) and two beetle species (Hermit Beetle and Red Flat bark Beetle).

- Main project activities:
- restoring 100 ha of abandoned grasslands by removing shrubs, trees and invasive alien plant species (Giant Goldenrod)
 - establishing 20 ha of new high-trunk orchards, renewal 20 hectares of existing ones
 - establishing 3 km of hedgerows by planting native trees and shrubs
 - conservation contract farming to improve grassland habitats and orchards for targeted HT, butterflies and birds
 - reducing light pollution by installing new bat-friendly lights at 9 churches and chapels with bat roosts
 - awareness raising by nature interpretation guiding and establishing new interpretation paths

Output: 187 ha of habitats in favourable conservation status within the Natura 2000 site Goričko

Guided hikes for nature experience
